Stone house 200 Luc-la-Primaube

Right in the heart of PRIMAUBE, I invite you to discover this stunning detached house, built in 1969, offering an exceptional living environment with a living area of 155 m². Set on a 947 m² plot, it is flooded with natural light thanks to its triple exposure. The house spans three levels, featuring a well-balanced layout with five rooms, including three comfortable bedrooms and the potential for an additional bedroom. On the ground floor, you will find a 35 m² garage, a laundry room, a bedroom, a toilet, and a boiler room. The first floor welcomes you with a spacious 35 m² living/dining room opening onto a 15 m² terrace. It is equipped with a recent wood stove, perfect for creating a cozy atmosphere on winter evenings. The fitted kitchen, designed as a kitchenette, includes a pantry for extra storage and direct access to the terrace. Two bedrooms, an office, a toilet, and a bathroom with a bathtub complete this level. The second floor is arranged as a large 26 m² bedroom (floor area), ideal for a teenager or for hosting guests. The PVC/aluminum double-glazed windows, electric shutters, and attic insulation ensure optimal thermal performance. For your comfort, the house is heated and supplied with hot water by a pellet boiler installed in 2021, coupled with cast iron radiators. In short, it's top-notch! Parking is easy with several outdoor spaces in the central courtyard. And for swimming enthusiasts, an above-ground pool with play equipment for children awaits, promising moments of relaxation and fun with
