House Saint-Rémy-de-Provence

Located in Saint-Rémy-de-Provence, in a sought-after neighborhood south of the village, discover this contemporary house built in 2016, still under a ten-year warranty. Ideally located near the town center while offering peace and comfort, it benefits from high-end amenities and a modern design. The ground floor comprises a north-south facing entrance hall, a bright living room with a fireplace, and a fully equipped kitchen with deep storage (75 cm) and premium appliances, including an induction hob, oven, microwave, and warming drawer. A master suite completes this level, offering a dressing room and a bathroom with a bathtub and shower. A spacious pantry and laundry room provide additional functionality. Upstairs, you'll find two bedrooms with en-suite bathrooms, ideal for family and guests. The house features heat pump heating with underfloor cooling on the ground floor and ducted air conditioning upstairs, ensuring optimal comfort all year round. Outside, a fully fenced, wooded garden with an automatic watering system surrounds an 11 x 3.5 m swimming pool (1.10 to 1.50 m deep), with a liner, salt treatment, automatic pH and motorized roller shutter. The tiled garage with a mezzanine is insulated and has an electric gate. Polished travertine floors, double-glazed aluminum joinery, electric shutters, and wooden blinds all demonstrate the high-quality, durable finishes. Finally, this property offers unobstructed views of the Alpilles mountains, enhancing its exceptional character. A rare opportunity.
