## House 4001 Saint-Rémy-de-Provence

STYLES Private Collection — Set in the heart of 1.5 hectares of olive trees, lulled by cicadas and bathed in light, this preserved farmhouse offers an intimate and authentic Provence. Here, luxury is not about showiness but a way of life: savoring the scent of lavender, strolling under the sun, admiring the Apilles throughout the seasons. A place where time slows down and every moment tastes exceptional. Complete dossier available only by request with references.
